

**KPU Electric Division Conservation Tip #22**

**Low Cost Home Improvements Can  
Save You Money!!!**

- 1 Replace furnace and air conditioning filters monthly.
- 2 Caulk between window/door frames and walls.
- 3 Weatherstrip between doors and frames.
- 4 Add storm windows or use plastic film kits to improve windows.
- 5 Insulate hot water heater.
- 6 Install motion sensors and timers for lighting.
- 7 Plant trees to shelter your home from the elements.
- 8 Install ceiling or other fans to cut down on heating costs.
