Should you have any problems with your DSL Service our Help Desk Technicians can be reached by calling 611.

- KPU INSTALLATION UNDERSTANDING** – I understand and verify that my computer meets the system requirements and is equipped with the appropriate operating system to qualify for KPU Installation. I verify that I do not have any special equipment on my line (i.e. TDD, KGH Lifeline, alarms) that may not function with DSL Service. I verify that the telephone number I have provided is the correct telephone number for which I would like to have DSL Service Installed. I understand that charges are involved in moving the service to a different telephone line/number. I understand that KPU Installation includes set up of only one computer. KPU does not provide support for home networks. I verify that my computer is within 6' of the telephone jack for the telephone number that I have requested DSL Service on. KPU Full Installation includes one site visit from an installer. I understand that I will be charged \$17.75 for missed installation appointments or the inability to perform installation due to not meeting the stipulations listed above. KPU highly recommends that you use some form of computer virus protection software with any Internet connection.
- SELF INSTALLATION UNDERSTANDING** – I understand that either due to system requirements, my operating system or by choice I will perform a Self-Installation of kpunet.net DSL service on my computer. I accept that Self Installation is performed at my own risk with no support provided by KPU. KPU highly recommends that you use some form of computer virus protection software with any Internet connection.
- MINIMUM SERVICE AGREEMENT** – A three month minimum service agreement is required with all DSL Service. KPUBizDSL Customers disconnecting prior to three months of service will be billed for the remaining months.
- DSL TRANSMISSION SPEEDS** - All DSL service levels are consider up-to the advertised speeds. For more information regarding DSL transmission speeds consult the User Subscriber Agreement
- EARLY DISCONNECT FEE** – A \$99.00 early Disconnection Fee will be charged to all KPUBizDSL Business Services disconnected prior to completing 12 months of consecutive service.
- FREE MODEM USE** – I understand that my DSL Service comes with a free modem to use while I remain a DSL customer. I agree to return the modem and all power and network connection cables within 30 days after my service is terminated. I understand that I will be billed for missing items if not returned. Billing not to exceed \$62.50.
- EXCESSIVE TRANSFER** - I understand that my amount of monthly transfer is limited depending on what level of service I have requested. I understand that there is a \$5.00 per GB excessive use charge. I am aware that I will be sent an email message to my main email account on a weekly basis warning me of the potential for excessive transfer charges. I am also aware that there are free download times when usage is not tracked from 12:01am-6:00am Monday through Friday & 1:01am-7:00am Weekends.

All kpunet.net Internet users agree to abide by the Internal Subscriber User Agreement.
The Agreement can be found at http://www.city.ketchikan.ak.us/public_utilities/kpunet/sub.html
